

The WIN

The WIN (Wessex Inspiration Network) is one of twenty-nine Consortia funded by the OfS (Office for Students) through its National Collaborative Outreach Programme (NCOP), to improve progression to Higher Education (HE).

The OfS analysed data about progression to Higher Education (HE) from all wards in the country and found that, in some wards, fewer students take up HE courses compared to other areas with similar GCSE results.

The WIN area covers specific wards in BANES, North Somerset and Wiltshire and works in partnership with local schools and colleges to improve the progression rate of students in Years 9- 13, from those wards.

Benefits of engaging with the WIN

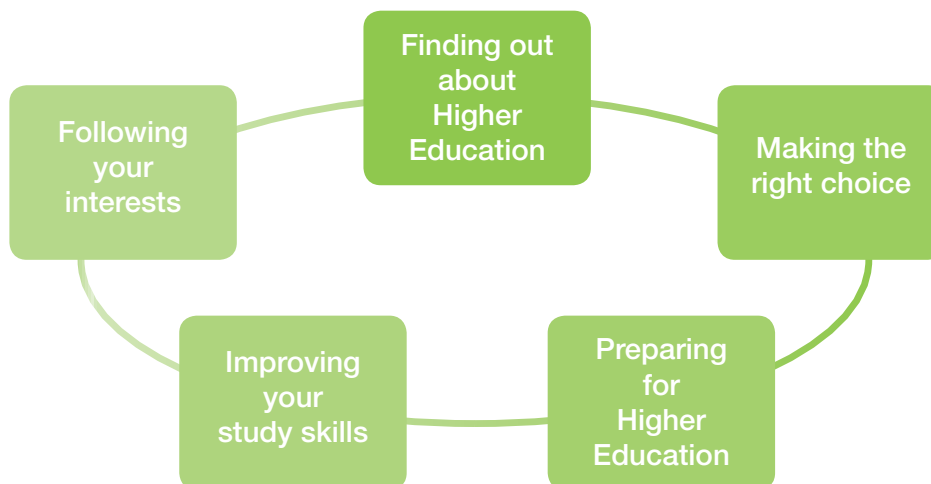

- Additional 1:1 careers advice for identified students
- Whole-school provision of HE information and awareness activities
- Demonstrates a positive and proactive approach to destination outcomes as expected by OFSTED
- Provides bespoke information for parents/ carers about higher education
- Access to the WIN programme of activities

Our HE Advisers, WIN Project Officers and delivery partners offer a range of activities, events and trips suitable for students in Years 9-13, which are detailed in this pack, adapted appropriately for each year group.

5 Strands of WIN
